

DEVELOPING RESEARCH STRATEGIES IN COMPLEMENTARY AND ALTERNATIVE MEDICINE

CAMSTRAND* Annual Conference

Thurs 30th April 2009, Middlesex University Hendon Campus

Building on the 'Developing strategies' conferences held previously at the Universities of Southampton, Northampton and York.

This year, in collaboration with the European Herbal and Traditional Practitioners Association (EHTPA)

Sponsored by Elsevier (Publishers of Complementary Therapies in Medicine)

Keynote Speaker: Dr Charlotte Paterson, Peninsula Medical School

This Conference will be of interest to all individuals and research groups interested in complementary and alternative medicine (CAM) research. Our aim is to facilitate further development of research within the CAM community and provide opportunities for developing researchers to present ideas and work in progress, allowing adequate time for discussion, input, advice and development. We are also interested in receiving submissions of completed work with some focus on "the lessons learned".

Submissions deadline: 28th February 2009

The numbers that attend the Conference will be limited to 60 in order to facilitate discussion.

The cost of the Conference will be £ 58.75 including lunch.
