

Acupuncturists Please Help with New Study of Acupuncture Patient Information Leaflets

Dr Felicity Bishop, a senior research fellow at the University of Southampton, is conducting a study to describe the written material that is currently used in clinical practice in the UK to inform potential patients about acupuncture. In order to complete this study, she needs to collect a large number of information leaflets that are used by acupuncturists to inform potential patients about acupuncture. She will then collate these leaflets and describe them using a form of content analysis. Please contact Dr Bishop directly if you have any questions about this study, by phone 023 8024 1072 or email acuback@southampton.ac.uk.

If you would like to help with this study, then please send Dr Bishop any patient information leaflets about acupuncture that you use in clinical practice.

Please email them to acuback@southampton.ac.uk, or post (no stamp needed) to Dr Bishop, Acupuncture PIL Study, Primary Medical Care, Aldermoor Health Centre, Aldermoor Close, Southampton, FREEPOST, SO16 5WB
